

The Mosinee School District is committed to the development of social and emotional skills. We believe social emotional learning competencies are essential for students to be successful in our schools and become contributing citizens in our communities. (WI DPI SEL Guiding Principles)

Self-Awareness: We believe that our students will be successful by developing self-awareness skills that enable them to demonstrate honesty and integrity, identify his/her emotions, and utilize a growth mindset mentality.

Self-Management: We believe that our students will be successful by developing self-management skills that enable them to manage emotions by utilizing stress management techniques and exhibiting self-discipline.

Social Awareness: We believe that our students will be successful by developing self awareness skills that enable them to demonstrate empathy, compassion, and understand others' perspectives.

Relationship Skills: We believe that our students will be successful by developing relationship skills that enable them to work as a team to collaboratively problem-solve, communicate effectively, develop positive relationships, and constructively resolve conflicts.

Responsible Decision-Making: We believe as a community that our students will be successful by developing responsible decision-making skills that enable them to understand the consequences of one's actions, identify solutions for personal and social problems, demonstrate curiosity and open-mindedness, and recognize that critical thinking skills are keys to success.
